Health at Home, Inc., in collaboration with our manufacturing partners, provides products to enhance the design, function, accessibility, and safety of the bathroom. Our bath modification products create spa-like, aging-in-place, and accessible – barrier-free bathing spaces for projects with varying budgets and physical circumstances of the bather.

Terms and Conditions

Prices: All prices are subject to change without notice and are exclusive of any shipping, delivery, or handling charges that may apply. Our products are subject to a Minimum Advertised Pricing Policy. See full details below. **If/when pricing changes in between printings of the price book, the current pricing can always be accessed by scanning the QR code on the front cover of the price book. Updated retail pricing will also be posted on our website and emailed to our customer contact list.**

Stocked items: Items listed in black are generally stocked in Charlotte.

Minimum orders: There are no minimum quantities or dollar amount required.

Handling charges: Unless notified prior to order shipment, there are no handling charges.

Terms: Net 30 days with approved credit; otherwise, payment in advance via electronic check or credit card. Payment of all invoices due within 30 days from the date of the invoice and invoices are subject to a late charge of 1.5% per month on all past due invoices.

Invoicing: All invoices are forwarded via email with tracking information provided for orders shipped from our warehouse.

Freight: All orders are shipped via the carrier and method of Health at Home, Inc.'s choosing with applicable charges added to the customer's invoice. If special routing or expedition is requested, we reserve the right to invoice any additional costs incurred. Oversized packages will be charged the carrier's published price plus handling. As a part of our service, every effort is made to assist with coordination of jobsite deliveries; however, it is the customer's responsibility to contact the carrier and to receive deliveries made to a jobsite or residence.

Prepaid shipping program: Orders of \$1,000.00 net for any combination of products shown on pages 17 - 26 will receive prepaid shipping. This does not apply to other products listed in the price book.

Damage or Loss: Products are shipped "Free on Board" (F.O.B.) meaning, our responsibility ends at the time Health at Home, Inc. delivers merchandise, in original condition, to the carrier. Delivery to the carrier constitutes delivery to the customer. All claims for damaged or lost shipments should be made promptly by the customer to the carrier. All claims for material shortage, incorrectly shipped product, or damaged goods must be made within 7 days from the invoice date.

Returned Goods Policy: Prior approval MUST be received in writing from H@H for the return of material. Please submit the list of items to be returned, an explanation for the return, and the invoice # on which it was purchased. We will issue a R.G.A. document that must accompany the returned products. The product must be shipped via a prepaid method (unless the cause of return is our error). All products to be returned for resale are subject to our inspection and a 25% restocking charge.

Warranty: All H@H products are covered by a minimum of a one year warranty to be free from defects in material or workmanship. See our full warranty document for details (available upon request).

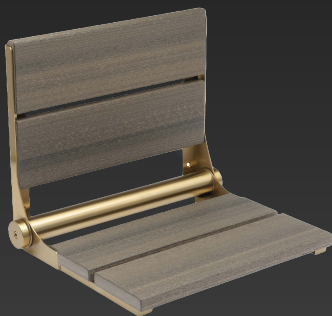

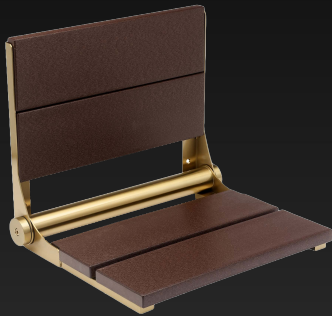

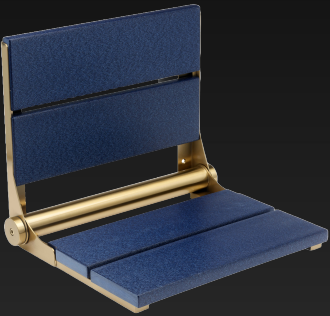

MAP Policy: Advertised prices for Products may not be displayed or otherwise advertised on the Internet at a discount of more than twenty percent (20%) off of the Bilanx bath collection®'s current list price for such Products (the "Minimum Advertised Price"). Resellers may only display or otherwise advertise Product prices that are equal to or greater than the Minimum Advertised Price.

Bilanx Shower Seats - What makes them stand above the competition?

- Bilanx seat frames are manufactured using high quality 12 gauge, type 304 stainless steel.
- The rotation of the stainless steel seat barrel allows the bottom to fold up flat against the wall when not in use (2-7/8" projection when closed).
- Teflon gaskets assures smooth movement up and down with light tension.
- The recycled HDPE material is color fast, does not harbor bacteria, and is easy to clean/disinfect.
- The Bilanx seats are designed and tested for weight bearing capacities to 500 lbs. when installed per instructions.

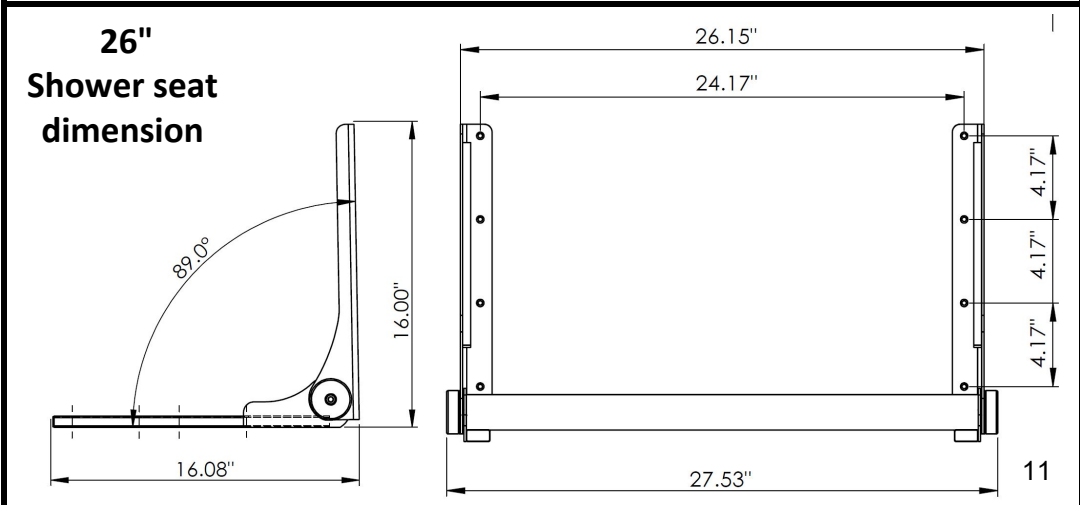

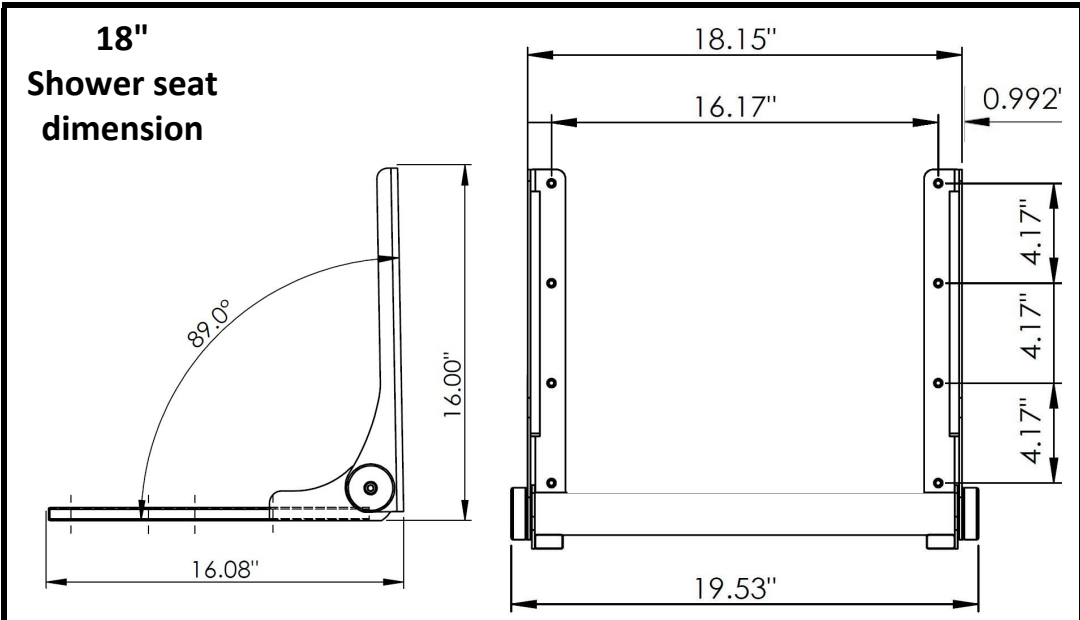

Why are HDPE shower seats superior to wood?

- **Less expensive** - HDPE is lower cost.
- **Lower maintenance** - HDPE holds its color and attractive appearance long term (wood does not unless aggressively maintained).
- **More sanitary** - HDPE is more sanitary (can be sanitized with a diluted bleach solution, wood cannot).
- **Better warranty** - HDPE shower seats have a 10 year warranty (natural wood shower seats have a 1 year warranty)
- **Consistent color** - HDPE colors are consistent. Wood teak color can vary from seat slat to seat slat.
- **More sturdy** - HDPE is stronger. 1" thick versus ¾" thick for wood.
- **Fewer service issues** - HDPE will not crack or splinter.
- **More color options** - HDPE shower seats are available in 16 colors.

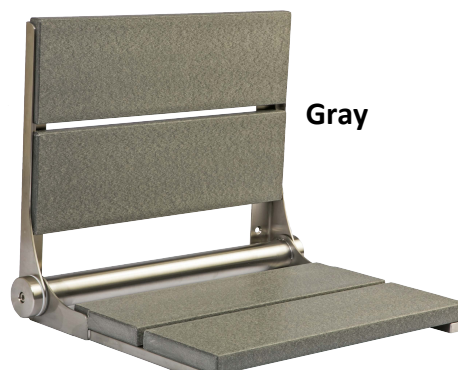

Seat Slat Color Options:

COLOR INFORMATION TABLE

Warm-to-Touch bars feature a "leather-like" feel & grip.

Applications for colors include: childrens' baths, pool baths, exercise spaces, and when color contrast is preferable as when circumstances of visual acuity (macular degeneration, cataracts, etc.) and cognitive issues might exist.

*Also available in these colors. Please contact us for pricing and availability.

HH-SOLIDMOUNT

The Solid Mount™ allows a grab-bar to be safely and securely installed into a fiberglass or acrylic tub or shower insert.

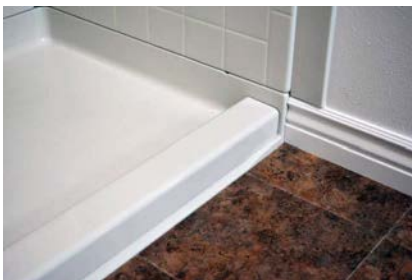

The Solid Mount incorporates a lag bolt to connect directly to the structural studs located behind the fiberglass or acrylic insert removing stress on the insert's thin walls & providing weight bearing support

SurfaceShield video

Now proven effective at killing viruses, including Covid 19.

- Powered by VYV Tech®'s proprietary 400-420 nanometer LED light, the SurfaceShield™ fan/light is clinically proven to prevent the growth and spread of bacteria, fungi, yeast, mold, and mildew on bath surfaces.
- The eco-friendly, anti-microbial light employed by SurfaceShield™, unlike UV disinfection, is not harmful to humans, plants and animals. It targets porphyrin molecules found only within the pathogens (bacteria) with no adverse effect upon DNA.

HH-AR110LKVV *Discontinued - limited supply available*

\$355.00

SurfaceShield™ technology combined with Broan's powerful ventilation offers effective protection against bacteria, mold, and fungi growth in your bathroom or other humidity prone environments. The SurfaceShield™ 110 CFM Exhaust Bath Fan generates powerful air circulation with minimal background noise.

Bilanx Universal Reinforced Shower Wall System

Ideal shower wall system for Accessible and Universally designed baths.
Superior to molded factory walls and thin wall covering materials applied to plywood backing.

HH-URSWS-84x36x62-WH

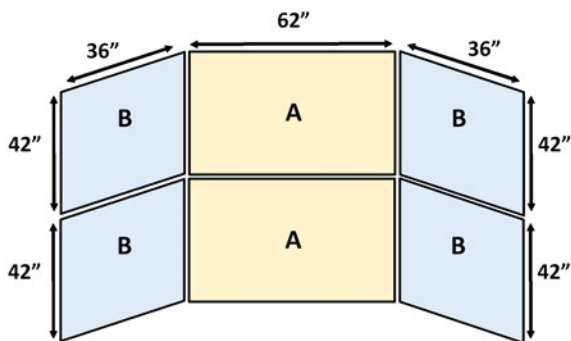

\$3,540.00

The Universal Reinforced Shower wall system is a two part shower wall system that provides full shower wall reinforcement and a modern 6x24" subway tile pattern surface. Kit includes dual thread screws and adhesive; **see all components below.**

\$50.00 palletize fee

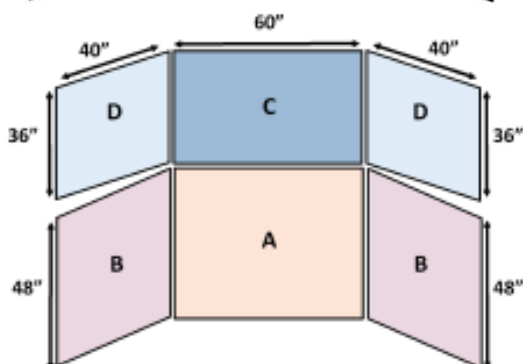

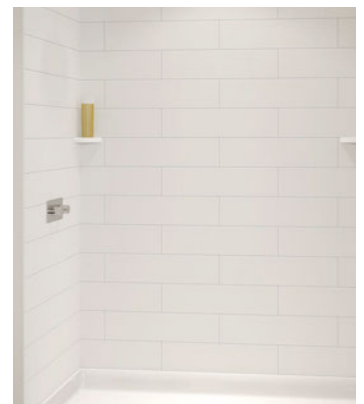

May be used with any shower pan/base listed on Pgs.36-37

- **Wall reinforcement at all points** - Support for grab bars, shower seats, hand shower slide bars, and accessories now or in the future.
- **Water-proof, rot-proof, and mold & mildew resistant** - Durable 16mm PVC backer board combined with 6mm solid surface covering (3/8 inch total thickness).
- **Nonporous** - Sanitary surfaces are easy to clean and maintain.
- **Attractive** - Updated 6" x 24" offset Subway tile design made of heavy gauge solid surface wall paneling.
- **Fully adaptable** - Both backer board and surface paneling can be easily cut to fit as needed.
- **Economical and Efficient** - Compatible with over 10 shower base dimensions making inventory flexible.
- Multi-piece, light weight, field trimmable panels. Easy to handle, easy to cut to fit.
- PVC corner and mid-wall seam trim assures alignment and water proofing of wall joints.
- System includes dual threaded stainless steel screws for securing 16 mm PVC panels to studs (every 12" vertically).
- System includes 10 tubes DAP adhesive for securing 6 mm solid surface panels to 16 mm PVC panels.
- 84" Height walls make finished wall heights with shower bases 85" – 89", 6 – 10" taller than one piece factory walls.

Modern Subway 6"x24" tile pattern solid surface shower wall set in white:

(4) 36"x42", (2) 62"x42", (2) PVC corner trim,
(3) PVC seam trim, (10) tubes of adhesive.

Bilanx Universal wall blocking kit for shower alcoves
60x40x84" or smaller.

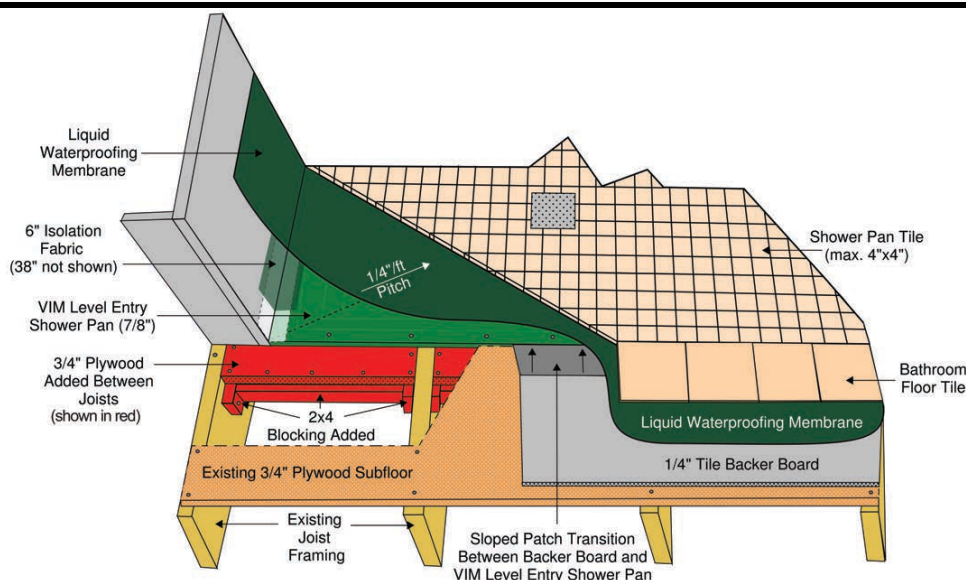

(1) 60x48" PVC lower back wall panel.
(1) 60x36" PVC upper back wall panel.
(2) 40x48" PVC lower side wall panels.
(2) 40x36" PVC upper side wall panels.
(108) Double thread screws.

SELECTING THE RIGHT TUB FOR YOU:

Soaker

Our premium tubs are roomy enough for a full-body soak, and the walk-in bathtub models offer an even deeper more spacious immersion, both provide an effective way to benefit from hydrotherapy. Hydrotherapy is the way in which water, by simply submerging yourself in it, can help heal the body, mind and spirit. Soaking in a warm or hot bath can provide detoxification, stress relief, and increased circulation among other benefits. It can also help with many health ailments such as insomnia and arthritis.

Air Jet (Air Therapy)

An air massage system makes bathing more enjoyable by adding a soft tissue massage to your bath as a blower gently pushes warm air through multiple jets spread throughout the bathtub for the most calming and healing effect. These warm bubbles soothe the body while stimulating the production of natural analgesic hormones known as endorphins. The variable speed makes it completely adaptable to the bathers' individual needs producing either a gentle caressing flow of bubbles or a more powerful stream.

Water Jet (Hydrotherapy)

While soaking in the tub has so many health benefits, adding hydro massage gives you even more. The warm and powerful individual streams of water are easily adjustable to customize your bathing experience with either low or high water pressure, or a pulsing effect that are placed strategically around the bathtub to give a thorough and vigorous massage right where it is needed. This deep tissue massage relaxes the muscles from everyday tension and helps eliminate accumulated toxins such as lactic acid.

Water and Air Jets (Dual Therapy)

The many benefits of hydrotherapy and massage therapy are undeniable. Now get the best of both worlds with a dual massage system. This massage system provides an array of options that can be changed at a touch of a button. Simply fill the tub, get in and enjoy. Or, for an even more pleasant experience, turn on the air massage and let the warm bubbles wash away the days stress. This easy to use and customizable massage system takes bathing to a whole other level.
